## We would be happy to tell you about all of the courses and ensembles we offer!

Currently 500 children, young people and adults are attending our music school. Under the structure plan of the Association of German Music Schools (VdM) the children begin their music instruction at the elementary level in the courses MFE (Early Musical Education). Anyone who hasn't found "his/her" instrument after these courses can join the "instrument carousel". Our qualified teaching staff teaches the listed instrumental and vocal subjects according to the guidelines of the VdM.

Playing in an ensemble is part of the all-round musical training; this is possible after the lower level.
