Town Fair: Bauen, Wohnen, Renovieren

Every year in spring, the town fair "Bauen, Wohnen, Renovieren" takes place in the center of Herzogenaurach. Here you will find comprehensive information and advice in an uncomplicated manner. The next city fair will take place on March 23, 2024.

The town fair will be opened at 9.00 a.m. at the stand of the Fairtrade Town Herzogenaurach steering group, Hauptstraße 29, by First Mayor Dr German Hacker. Afterwards, you will receive information at the stands on everything from modern heating technology, sun protection, doors, windows, painting and roofing work to photovoltaics, solar thermal energy and carpentry and blacksmith work. Comprehensive advice on sustainability, construction financing and public subsidies round off the offer.

Special Lectures

There will be specialist lectures again this year. These are free of charge and take place in the town hall.

Meeting room, 3rd floor (barrier-free access)

10.00 am:

Christoph Kunze, BayernCare GmbH: Preferential occupancy

rights when buying a care property.

11.15 a.m.

Willi Harhammer, Ikratos: Photovoltaics & heat pumps - generating and consuming electricity yourself - using natural energy efficiently.

12.15 pm

Herbert Schuhmann: Umweltbüro Schuhmann: Heating Act / Building Energy Act - legal requirements and current subsidies for heating and insulation.

1.15 p.m.

Hans-Peter Höcker, Höcker Wärmepumpen: Heat pumps in old buildings - how does it work?

Room 3.03, 3rd floor (barrier-free access)

10.00 a.m.

Uwe Dippold, Building Biology Nuremberg: Pollutants in old buildings - What to look out for when refurbishing and renovating.

11.00 a.m.

Johannes Kollinger: Energiwende ER(H)langen e.V.: Heating modernisation using heat pumps.

Fun for kids and Easter bunny hunt

Young builders will also get their money's worth at our city fair. The Baumobil is ready and waiting on the market square and invites you to create your own structures.

This is also the starting point for this year's Easter bunny hunt, sponsored by HerzoWerke. From 10.00 a.m., children can pick up a number at the Baumobil and set off on their search. The Easter Bunny has hidden a little surprise at the exhibitors' stands!

Secure energy supply for SMEs and industry

More specialised information will also be available after the city fair: Chris Klein from IBC Solar AG will be giving an online lecture on 11 April at 4 p.m. on secure energy supply for SMEs and industry and will be demonstrating practical options using the example of photovoltaics and hydrogen. The lecture is free of charge, so why not register now!
