

Town Fair: Construct - Live - Renovate

Consulting, information and Easter baskets: Around the Easter holidays the town center of Herzogenaurach is all about the topics “construct, live and renovate”. A special program is organized for the kids. The next town fair takes place on April 9th, 2022.

Local and regional specialized enterprises present their diverse and innovative ranges of products, including modern heating technologies, sun protection, doors, windows, painting and roofing services, carpenter and blacksmith works. Interested customers are offered individual solutions for their interior and garden design.

Additionally, comprehensive advice regarding construction financing, public subsidies and insurances are offered in the framework of the Town Fair. Several free lectures and presentations provided information regarding the topics construction and living as well.

Exciting kids program

In the framework of the Town Fair, the Generations.Center provides an exciting program for kids at their **construction trailer** on the market square. All kids are invited to get creative: create fanciful buildings, make your own spintop at the spintop factory, or build an XXL ball run. The **Easter basket hunt** is also another popular activity for kids.
