Guided tour with the night watchman

In autumn and winter, you can look forward to guided tours with the Herzogenaurach night watchman! With halberd, lantern, bugle and a large hat, he sets off on his tour after dark. On his tour, he tells stories and anecdotes and many a secret from 400 years ago in Franconian dialect. Let yourself be carried away into the atmosphere of times long past and enjoy the night-time view from the Vehnturm.

The guided tour costs EUR 8.00 per person and is payable on the spot. The meeting point is at the Georgsbrunnen fountain on the market square. Night watchman tours can also be booked as a group tour. This then costs EUR 85.00 for a maximum of 25 people.
