

hin&herzo - The Culture Festival

“Imagination” - this is the headline of the second edition of hin&herzo - The Culture Festival taking place in September 2019. Musicians, actors, speakers, but also scientists, comedians and magicians will enchant our hin&herzo Culture Pavilion, the hin&herzo Discovery Area and other event locations like the Vereinshaus with their imaginative performances, creations and productions. Be part of this experience from 27th to 29th September 2019!

Regional and national artists will unfold pictures, feelings and soundscapes, they will tell of adventurous enterprises and will show us where an imaginary journey can take us to. Imagination is the inner impulse for our mental cinema. Therefore, this year's highlight events - but also all other events of hin&herzo - The Culture Festival - are to invite you to make use of your imagination. Rediscover your inner child and walk through the downtown of Herzogenaurach on new imaginative paths.
