

Pop Up Kunstprojekt

Are you interested in looking over the shoulder of an artist couple from Herzogenaurach as they create their next large-format paintings?

From now until April 2022, two members of the Herzogenaurach Art and Culture Society will be using the empty rooms of the former Nürnberger Nachrichten newspaper ticket shop as their art studio.

Don't miss this unique opportunity of being able to watch two very talented artists at work through three large shop windows – almost as if you are in the room with them. They mainly work at the weekends.
