

Holiday Program for kids

It's only a few weeks until the summer holidays and as usual there is no time for boredom because of the diverse program from the Generations' Center!

The heart of every Holiday Program are the diverse offers and the participants shaping activities. The Spielmobil brings a lot of action and activities. The overall theme this year ist "...and action!". The holiday opening event takes place in teh pedestrian zone on July 30.

This year there is also a new program for grandparents and their grandchildren. It will surely be to everybody's benefit when young people make new experiences and discoveries together with their grandparents.
