

Events

Throughout the school year, the Music School offers a variety of different public student performances and concerts, as well as information events for students, parents and everybody interested in music.

Families Making Music on November 25, 4 pm

A varied family potpourri on occasion of the Day of Domestic Music.

The entertaining concert is evidence enough for the fact that domestic music is still relevant today. Every year, students of the Music School give enthusiastic performances together with some of their family members. The program ranges from pop to classical music.

Music Cocktail

This cocktail is neither shaken nor stirred - yet, the musical mixture whets the appetite of many a listener: Students and teachers arrange a diverse program, ranging e.g. from Mozart to Revolverheld.

Whether they are performing as soloists, in a duo or as an ensemble - the variety is exciting!

UMPS - United Music Power Session

The United Music Power Session is the perfect event for jazz, rock and pop music fans.

Several times a year, the instrumental and vocal concert is performed with swing and rock. Quite often, students and teachers perform together and can also be enthused for spontaneous improvisations.

Teachers' Concert

During the Teachers' Concert of the Music School, the teachers prove their abilities as soloists, in duos and ensembles.

The concert programs are arranged around varying topics, ranging from classical music, music from the Baroque or Romantic period, but also modern music, folk music, pop and jazz.

Information Day

The "Information Day" is particularly interesting for parents with children in kindergarten or elementary school and is meant to assist them with the decision for a musical education for their children.

Visitors of the Information Day receive information about the elementary classes and have the opportunity to try out different instruments together with the relevant teachers.

Any questions regarding the instruments or the registration procedure will be answered by competent staff members. The focus of this event is on the consultation by the qualified teachers.

Open House

During the day of Music School Open House, children and adults have the possibility to gain an overview of the variety of instruments as well as further offers of the Music School besides the classic instrumental and vocal classes.

A "journey through the world of instruments" and a Music School price rally make this day a day of music experiences for children.

Some of the ensembles of the Music School entertain the guests with their music, and the Förderverein (friends' association) provides drinks and food.

During this event, it is also possible to receive general information or register for the next school year.

Adult Students' Concert

Every year, the adult students of the Music School prove with their own concert that music does not know any age limits.

A variety of soloists, duos and ensembles perform on the stage of the Music School.

Best-of Concert

Students and ensembles of the Music School present the highlights of the school year on a big stage in the framework of the school year-end "Best of" concert.

The music from the most different genres presents all facets of the Music School. Soloists, duos and ensembles once more perform the best of the previous school year.

Additionally, the Music School award winners of the "Jugend musiziert" ("Youth making music") competition are part of the concert.
