Construction sites in Herzogenaurach – a city grows

The town of Herzogenaurach is emerging. That also means that there are always constructions - they are part of a townscape.

There are numerous construction and renovation projects planed at the moment and in the following years: whether roadworks, sewer construction, constructions in the water economy or urban buildings such as schools or kindergardens. The town of Herzogenaurach is renovating, modernizing and newly building. Please inform yourself on the following pages.

Road works: Current traffic news
