

Construction sites in Herzogenaurach – a city grows

The town of Herzogenaurach is emerging. That also means that there are always constructions - they are part of a townscape.

There are numerous construction and renovation projects planned at the moment and in the following years: whether roadworks, sewer construction, constructions in the water economy or urban buildings such as schools or kindergartens. The town of Herzogenaurach is renovating, modernizing and newly building. Please inform yourself on the following pages.

Construction of the new town hall and renovation of the castle

One of the biggest construction sites in the heart of Herzogenaurach is the construction of the new town hall with the renovation of the castle. The urban administration is situated in the formerly PUMA headquarter at the Wiesengrund.
